## *A Look at our Next First Lady's Birth Chart*

**M**elania Trump's astrology tells a story of a girl who has a mission to bring beauty to the world. Her story is one of Cinderella and the knight in shining armor (Donald Trump). Her birth chart set the stage. She has an astrology that is perfect for the position of First Lady. She is a perfectionist and has an eye for beauty. Her Moon in the 6th House of Capricorn is Trine all her planets, and four of those planets are in Taurus, the sign ruled by Venus. She was born on April 26th, 1970, at 9:02 am, in Novo Mesto, Slovenia, a beautiful little town.

She had an upbringing that helped her understand how to bring out the beauty in people. I think the influence of her stars pushed her to excel at the art of

bringing beauty to anyone and everyone. Venus is her planet of choice.

The way I see it, your destiny and the God-design for your life are decided before you are born. Then, your free will-choices take you to the place you need to be, either sooner or later.

Melania is a kind of minister of grace and beauty. You can almost sense a royalty in her past lives. She has the astrology of the masses of people, 11th House, who see her, and then feel cared for, healed, and grateful for a breath of beauty. This influence comes from Pisces at the top of her chart. When you look upon beauty in any form, from Mother Nature to a person who models, it's good for the mind's eye and softens the blows in the world.

Melania, according to her stars, has always had her eye on

the bigger picture. Pisces rules the artist and photographer and we know she has been a model—showing herself in the big picture, serving a bigger cause.

She has a Cancer ascendant and truly wants to be a nurturer to those she contacts in life. With most of her personality planets (i.e., the fast-moving planets: Mars, Venus, Mercury, Saturn, and her Sun in Taurus) sitting in an Aquarian house, activating the Virgo and Capricorn decan, she is pretty-well grounded—she knows who she is and who she isn't. She is a friend to those who are in her world. She has seen her fair share of betrayal and has a bad taste in her mouth for those who are not loyal. I think she has seen a lot of bullying in her life. This struck a cord deep within her and truly she can read anyone. She is very sensitive and able to tune in to others.

Melania Trump's birth chart

With Jupiter in her 5th House, children could be a cause she crusades for. Her need is to see to it that children are not bullied.

With Pluto and Uranus in her 4th House, she has lived in unusual situations, from the shoebox to the castle, and everything in between. She may have had to deal with her parents having a friendly, loose and open home, with a good bit of imbibing here and there. I think this helped her learn at a young age to be able to get along with any type of person. Her family may have been friends with everyone. For her friends, Melania may have preferred males who were leaders in their fields. She was, in effect, trained in early life to be that special one for her champion, Donald Trump. She can handle him, and pull all his talents to the surface. She can put him in a place of

light. Truly, I love her chart—I can hardly believe we have such a sweetheart as a first lady!

Having grown up with diverse people, Melania may have a sixth sense and a love for languages. With her Mars in a Gemini double decan, she may have learned some disciplines by osmosis and not always through concentrated study. She discoursed with a lot of people in her world and had good reason to learn six languages. She is an action-oriented person and not one to sit on the sidelines. Her love of beauty and order is her genius. She has a natural ability to design. This comes from all her Taurus, the sign ruled by the planet Venus. She has a gift at making all behold beauty. Her Moon in the 6th House shows an emotional need to put things in order. (She may have seen addictive personalities and her share of chaos in her life.)

She can probably fix anything that is broken. She loves good health and takes good care of herself. People may have demanded a lot of her in life and even nitpicked her, trying to find fault, but the more people did that to her, the more she rose up to perfect that aspect of herself that others were critical of. She has an Aquarian backdrop to her Taurus Sun with the 11th House being packed. That is the house of community and groups—the larger population. Aires ruling that house cusp, which makes her a leader in the circles she comes into.

An intercepted 11th House would show that she didn't know she was going to be the First Lady, but it's there in her chart. She has the ability to seek her goals and always has a goal. Like her husband, she can plan and build an empire on her own. She is a bit set in her ways. (I never met a Taurus who wasn't.)

However, her taste for surrounding herself in gracious elegance is predominant. She has very good manners; she is dependable and constant.

Here is something uncanny. In the astrology chart for women, Mars rules the man they are attracted to. Melania's Mars is in Gemini and guess what President Elect Donald Trump's Sun sign is in—Gemini! Her 7th-House cusp, which is the house of marriage and committed partnerships, is in Capricorn. And guess what? Her husband has a Capricorn backdrop, meaning his Sun is in a Capricorn house. Melania's Moon is also in Capricorn, so her family upbringing has taught her to be attracted to one such as President Trump. Sometimes they both get into the workaholic mode and can have moments of being separated due to that tendency. But absence makes the heart grow fonder!

Melania will always appear in public as gracious, kind and well mannered, with Pisces on her midheaven. She likes the attention and being in the center as Neptune is in her 5th House. She can be very sensitive to criticism, I suspect, because people imagine she is this or that, but underneath, truly she is the mom to all. She likes an anchor and needs security.

She is "as smart as Einstein" with her 11th House Aquarius behind her Mercury. And Capricorn decan to her Mercury makes her the authority, too!

We could all learn a thing or two from her on manners, beauty, charm and graciousness. Of course, there is the stubborn side. She has her way of doing things. She will stand strong on humanitarian issues. She is her brother's keeper and can be generous of heart and giving of her time in selfless causes.

As mentioned, when you behold beauty, it is healing. I think she is Venetian all the way. Venus is her ruling planet and she has the art of love and beauty mastered. She will bring more beauty to the White House.

With Jupiter in her 5th House, I think she will minister to children in that she will want to bring beauty and address the harshness and bullying, and fix it—she is a fixer!

She has a pronounced gift in helping those who are bullied. I think she has seen a lot of that behavior in the world she walked through and wants to stop hatred and ugly behavior in its tracks, particularly for the youth. We are very fortunate to have her as our first lady! ■
