
Your Heart's Desire

Barbara K. Michael-Grover, Numerologist

Fate is kind—she brings to those who love
The sweet fulfillment of their secret longing.

—from Disney's Pinocchio,
"When You Wish Upon a Star"

How the Vowels in Your Name at Birth Reveal Your Secret Wishes and Longings

Are you following your Heart's Desire? Is this urge so strong within you that it subordinates all other traits of your character? Or, to the contrary, because of the stressful circumstances in your day-to-day world, is it simply a dormant desire that never sees the light of day because you have not recognized it or nurtured it? No worries—the information below may help you to discover your secret longings.

One of the most important numbers to be delineated and analyzed in your name given at birth is called your Heart's Desire. It is found by taking the vowels of your full name at birth (the soft sounds, a, e, i, o, u) and reducing them to a single digit. Numerologists always place the numerical equivalent of each vowel across the top of the full name at birth and reduce these to a single digit by addition (for instance, 45 becomes 9). This article is intended for you to ferret out the vowels of your name and hear the call of your soul, to listen to its message and bring it forward into self-expression.

Your Heart's Desire is read "what you desire to be, to do, or to have". The vowels depict your Inner Self, how you really feel deeply within yourself, and not as you sometimes appear to others in the world. The Heart's Desire is the secret you hold about yourself, and is your inner strength. The Heart's Desire indicates how you feel, think, and act. Your inner soul-self is always striving for recognition and self-expression. If we stay true to this inner voice, no obstacle is too great to stop our progress for self-fulfillment. In metaphysical thought, the law of "so within, so without" applies to this important aspect of your name's numerology. Here is how you can "hitch your dream to a star" and become true to your soul's urge and Heart's Desire.

To see how this is done, we will use the name of the very popular country-western singer Taylor Swift. Taylor's vowels are shown below above her name at birth. If we add the vowels together (32) and reduce them to a single digit, we have 3 + 2 = 5:

1 6 1 9 6 9
TAYLOR ALLISON SWIFT
Vowel Total: 32 (3 + 2 = 5)

A five Vowel Total in the name indicates an enthusiastic, progressive, unusual person who loves large groups and public activity. They are very independent in thought and feeling. "Fives" do not allow anyone to "rain on their parade." They demand complete freedom to express their creativity. "Fives" also do not let circumstances hem them in—they will always find a way to think "outside the box." "Fives" love multi-tasking, variety, travel, and mental and physical challenges, and are good at "rebounding" when they meet obstacles they can't surmount.

1	2	3	4	5	6	7	8	9
A	B	C	D	E	F	G	H	I
J	K	L	M	N	O	P	Q	R
S	T	U	V	W	X	Y	Z	

This is called the Pythagorean Alphabet.

In the next list, for your convenience, we will eliminate the consonants and just have the vowels remaining and their numerical equivalents:

1. A
2. (No vowels represent 2)
3. U
4. (No vowels represent 4)
5. E

6. O
7. (No vowels represent 7, except for Y, as in Lynn.)
8. (No vowels represent 8)
9. I

Print your full name at birth in the workspace below. Put the numerical equivalent of each vowel above the letter in your name, and reduce to a single digit. Then refer to the meaning of the vowels in the chart at right and see if your Vowel Total gives you a peek into your Heart's Desire. ■
