

The Many Benefits of OZONE THERAPY

Georgia Cold-Noble,
Certified Colon Hydrotherapist

Ozone is super-oxygen! Ozone is lethal to pathogens, fungus and cancer cells. Ozone kills HIV and 99.99% of all viruses and bacteria within the body. Ozone slows down the aging process. Cancer cells cannot live in a well oxygenated environment and for decades now, cancer has been treated with ozone therapy. All diseases cannot live in oxygen. Aging is also a disease and ozone slows down the aging process.

Dr. Bernard Jensen, at age 92, overcame cancer three times. He spent his whole life studying what makes people age. He wrote the book *Colon Health* and affirms that oxygen is the key to longevity.

In the Himalayan Mountains, the average life expectancy is 120

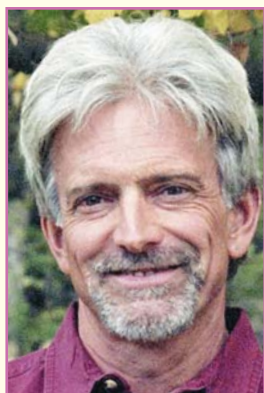

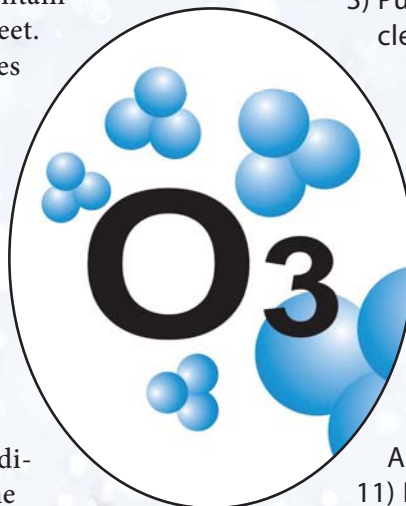

years. There is no cancer, no heart disease, no diabetes, and no arthritis. The biggest contributing factor to this is pure ozone found in high-mountain areas above 7,000 feet.

Ozone is 3,000 times faster and more effective than chlorine at killing bacteria, molds, cysts and viruses.

Microorganisms cannot build up an immunity to ozone; neither can bacteria, virus, candida or fungus. Ozone therapy stimulates the production of white blood cells and can even clear blockages in blood vessels. Ozone also degrades phytochemicals and helps break down plaque inside the body by oxidizing it.

Some other benefits of Ozone Therapy include:

- 1) Improves circulation
- 2) Enhances immunity
- 3) Purifies and cleanses skin
- 4) Cleanses the liver
- 5) Kills parasites
- 6) Combats chronic fatigue
- 7) Corrects memory loss
- 8) Kills candida
- 9) Fights flu
- 10) Prevents Alzheimer's
- 11) Prevents asthma
- 12) Purifies the liver
- 13) Prevents allergies
- 14) Fights Epstein barr
- 15) Removes heavy metals
- 16) Removes environmental toxins
- 17) Fights herpes

LIFE ENHANCEMENT with Dr. Michael Lang, Naturopathic Physician

Using bio-identical hormones is a preventive approach for building and maintaining strength, flexibility, cognition and immunity as we mature.

Hormones control virtually everything about our physical and mental health. As the level of hormones declines in our body, so do we decline physically, mentally, and emotionally. By restoring these hormones to youthful levels, it is now possible to restore our youthful zeal and energy and to strengthen and bolster our bodies, as well as our minds!

Sorry, hormones will not reverse aging. They will not keep us permanently at one age. We will still continue to

age and lose cells secondary to a process that is regulated genetically. Using hormones, though, we can slow the precipitous decline that occurs after midlife. We will stay resilient. The purpose is simply to replenish the hormones that already occur naturally in our body and boost them back up to the appropriate, medically-sound levels necessary to maintain youthful health and vigor. **Which hormones to replace, how much to replenish, and how to adjust the hormones so they act synergistically is the art and science of Bio-Identical Hormone Replacement Therapy.**

Goals of the Vital Life Program are to establish optimal hormone function along with superior nutrition, exercise, and ongoing detoxification. If we plan on being active for the rest of our lives, we want the best quality of life and vitality with whatever quantity is ours. Using bio-identical programs in a preventative program is safe, well-researched, and cost-effective medicine for those proactive enough to enhance the quality of their lives in the future.

Call Dr. Lang at (406) 586-1100. Visit TheVitalLife.net.

- 18) Prevents multiple sclerosis
- 19) Detoxifies the lymphatic system
