

The Akashic Records: Key Insights for Inspired Living

“Maybe the journey isn’t so much about becoming anything. Maybe it’s about un-becoming everything that isn’t really you, so you can be who you were meant to be in the first place.”

—Paul Coelho

We are all blessed with a unique Divine Soul purpose. When we are aligned with it, we feel empowered—we thrive and shine. In the radiance of our authenticity, we positively effect, perhaps even inspire, the lives of others. Living our Soul purpose brings us direction, deep satisfaction, and motivation to succeed in our chosen endeavors. It’s not a secret, yet we may remain uncertain as to what our Soul purpose is or how to find it. The Akashic Records are available to us all as the Soul’s “golden key” life manual, unlocking our unique talents and gifts, the history of the soul, and opening promising visions of future possibilities.

How many times have we recognized that we repeated, once more, a negative pattern, which left us regretful of that choice? We promise ourselves that we

will do it differently next time, yet there’s a proverbial foot nailed to the floor, and we’re not always successful at keeping that promise. Sometimes we almost catch ourselves, yet an elusive fog seems to cover what might bring clarity and assist us with interrupting a pattern. In other cases, we are living uninspired lives, as we were taught we “should” live.

The Akashic Records is the universe’s gift of support for identifying our apparent limitations, including past life karmic patterns, contracts or agreements, negative thought patterns, or other energetic mechanisms. All of these result in a kind of karmic looping or a sense of incompleteness deep within us. We are not broken. We are ready for a karmic reset. We are ready to embrace our authentic, spectacular Self.

My Soul Reading with Gypsy catapulted me into a new experience and way of being. Many things she said I knew conceptually. The reading and prayer allowed me to “clear” repetitive personality patterns that I’ve struggled to release my whole life. In 2 hours, I found myself in an Experience I always knew was there. Subsequent coaching helped me stabilize and integrate this new Being into my daily life, shifting old patterns with those around me who were used to my personality patterns. The time with Gypsy is not a normal “new informational” thought that leaves you where you started. It is truly transformational

and saves a tremendous amount of time. I find myself now in an expansive, delightful, fully responsible place where communication is effortless, direct and fun. I feel fully at Peace. She gave me guidance at the time when I didn’t know who to turn to, knowing that a regular therapist could not help me. She comes from a whole, fully integrated place that is inclusive of all. The guidance you get is loving and truthful in a way that can’t be explained in what she would call 3-D, or time and space. Fabulous! I can’t recommend her enough.

Gypsy's Soul Readings have given me greater self awareness and clarity than I have ever experienced. I live each moment with greater ease and freedom.

An Akashic Soul Reading with Gypsy reveals limiting patterns and how they apply to current issues we desire to heal. Sessions include a meditative clearing process and close with exploration of what new choices can be made to ensure new results. A great deal of information is shared during the Basic Comprehensive reading, which can be deeply transformational. All sessions are recorded, so they can be revisited at any time. While this is plenty for some, full Soul fusion may not occur in one session.

Eventually we desire to fully absorb our Divine Soul personality, allowing it to replace the personal self. This journey is not difficult; it is different. It promises elevated consciousness, restored wholeness, and renewed passion for graceful, effortless living. Session packages are available for those souls desiring full conscious reclamation of the Soul.

Gypsy has assisted thousands of souls with clearing karmic

patterns and living their Divine self-expression. Adult clients report improved relationships, attracting loving partners or fabulous business partners, career changes, improved health, increased financial abundance, and peace. Our little ones, innocent as they are, have the same Akashic complexities as adults.

Behavioral and physical issues can shift dramatically when parents become aware of their children's Divine gifts, and then support the clearing of blocks or restrictions their children have carried. The difference it can make for the family is immeasurable. ■

Every soul benefits by Soul Realignment. Gypsy offers several levels of service, including the "Definitely Curious" mini-reading, the Basic Comprehensive Soul Realignment reading, and the advanced Elevated Experience, where we consciously reach liberated, multi-dimensional self-awareness, and which includes Light Body Initiation, integration with the "Higher Self," galactic soul unification, and extensive DNA clearing.
