

20 Years into the Millennium— **BUT WHO'S COUNTING?** *Numerological Significance of 2020*

Barbara Michael-Grover

T*empus fugit!*

Here we are in 2020! Seems like yesterday we were all anxious about the turning of the century into a new millennium (2000 and beyond). For example, we were

anxious about the possible “Y2K crisis.” Some believed computers would crash. As it turned out, that was a “tempest in a teapot.” But, by contrast, the traumatic events of 9/11 have changed our world and taken away some of our personal freedoms as a result.

We all wondered, especially Numerologists and Astrologers, how the coming millennial years’ events would turn out. Now, 20 years later in retrospect, we see the unfolding of events, both individually and globally. The archetypal energy themes played out year-by-year have been dramatic and earth-changing, with political upheaval, mass immigration throughout the world, financial collapse, and huge divisions in public opinion, sometimes orchestrated by mass media, have polarized families, acquaintances, communities, and nations.

The Spotlight of Truth has shone into areas of public and government institutions, as well as personal lives. This disclosure has paved the way for huge exposures in the past decade about hidden agendas, government secrets, and distasteful facts about some celebrities that have been fodder in myriad news reports and tabloids—facts that were disconcerting to many of us.

So, hopefully, after the dust settles, if it ever will, a NEW FOUNDATION to our world can begin to MANIFEST, built on more transparency, structure, endurance, and practical values.

NUMBERS DON'T LIE—THEY SEEK TO EXPRESS IMPERSONAL & UNIVERSAL VIBRATIONS

The explanation of the Number 4 by the great Numerologist Juno Jordan is: “The Number 4 holds the key to all arrangement and interpretation of form, plans, dreams, ideas, and patterns from the material, mechanical, and mathematical to the artistic, esthetic, religious, and spiritual levels of thought and feeling.”

“IT PROVIDES THE FOUNDATION ON WHICH ALL THINGS STAND TO SUSTAIN LIFE & THE INDIVIDUAL.”

Dr. Jordan continues: “The Number 4 arranges, constructs, builds, maintains, and carries out, which provide the matrix for lasting and tangible results. It turns raw material into particular forms and shapes. It molds them into harmony with each other. It demonstrates the Cosmic Order of growth and attainment, and with a powerful and firm hand, it brings Time and Space down to Earth. It arranges that which has been imagined and dreamed of, and makes it concrete and applicable to human living.”

These concepts expand our consciousness to understand the hope of the new 4 Universal Year 2020.

Now, knowing the key meanings of this 4 Universal Year, how does it affect our PERSONAL YEAR in 2020? In her informative book, *Your Right Action Number*, published in 1979 by DeVorss, Dr. Juno Jordan developed an accurate and dependable insight into taking the appropriate action for each calendar year.

HOW & WHY TO CALCULATE

YOUR PERSONAL YEAR BASED ON THE UNIVERSAL YEAR 2020

Every individual, young and old, has a PERSONAL YEAR NUMBER. As you become aware of this accurate and continuing timing device in your life, you will be guided by it and gain a sense of confidence in TAKING RIGHT ACTION for the Universal Calendar Year 2020.

HOW DO YOU FIND OUT WHICH PERSONAL YEAR IS YOURS?

To calculate your own personal year in the year 2020, add the Universal Year Number for 2020 (4) to your own BIRTH MONTH NUMBER plus your DAY OF BIRTH NUMBER. So, if your birthday was February 11th, your personal year would be calculated as 4 (for 2020) + 2 (for Feb.) + 2 (11 = 1+1 = 2) for a total of 8. This individual might find a new opportunity for exercising supervision and management of others in an executive position, which may include banking or investments in a financial institution. Another way it could be expressed is the individual may exercise more personal power in their own career choice. It may also encompass inheritances. Number 8 is the number of power, authority, finances, inheritances.
