

The Great Aquarian Awakening

12 Keynotes for Revelations

This World Is in an Epic Test for All Souls of Conscience, and that Test Is Reaching a Climax

An unprecedented drama is playing out on the global screen of life. To say that this is a *Time of Revelations* is an understatement. There are 12 keynotes—12 frames of reference—for incrementally unveiling this Revelations drama of our changing world order. *“Inch-by-inch, it’s a cinch. Yard-by-yard, it is hard!”*

The Big Picture of Aquarian Transformation is definitely greater than the Sum of these 12 perspectives for the Great Awakening. Beyond the politically correct, ‘woke’ narrative is the conscientious, evolutionary ascent of each one’s awareness. Some call it a *paradigm shift*—others refer to it as a quantum or dimensional shift. So, celebrate the Great Awakening by digesting the food for thought in these 12 keynotes. Chew thoroughly, and enjoy!

The genesis of this drama is accelerated change in our world, due to a shift in the quantum-field energies, ‘morphing the matrix’ into an [Aquarian Frequency Shift](#) (1). We were *winning from the beginning* of this genesis, which is facilitated through our new ‘Net reality’—the instant, everywhere, interactive, communication capabilities now defining a global village—*The Family of Mankind*.

That which unites us is the ‘High State’—[United Sovereigns of Earth](#) (2). This is much stronger than the divisive dialectic of the ‘Deep-State’ dystopia. Those who read my weekly Reality Reports at the [2022 Great Turn-Around Series](#) (3) are well aware that planetary civilization is going through the systemic paradigm shift known as the *End Times*, which spells the *End Game*, as horrendous evils are eradicated from planet Earth. This long-prophesied battle of good vs. evil is said to result in a time of great tribulation, unless it is mitigated by enough good people who wake up, wise up, and rise up.

Most good people know something is very wrong within global events, but they can’t wrap their heads around the abject evil behind the Armageddon scenarios of the [Four Horseman of the Apocalypse](#) (4) playing out as: plague (Covid), war (Ukraine), famine (food scarcity/supply disruptions), and death (the globalists’ depopulation agenda).

Certainly, we must pray for victory over the dark forces infesting the Earth. But in addition to that, these problems warrant serious global solutions, which represent Aquarian models of community, with advanced communication tools and processes for mass-to-mass interaction that comprise our [Five Core Internet Freedoms](#) (5).

These models will update core Constitutional Freedoms from “horse-and-buggy” capabilities to quantum-age connectivity. That connection empowers the wisdom of the crowd (social conscience) with a high state of conscientious common sense. This unified field of conscience is qualified by heart coherence, (i.e., the science pioneered by Dan Winter and the HeartMath Institute). It is a universal standard, a golden-ratio algorithm, of heart rhythms that resonate with the frequency of compassion. This is the great metric of pure intention and good will at the heart of *social conscience*. A spiritual revival of global civility will naturally follow this mass coherence, aligning with the *“angels of our better nature.”*

I recently published an article on all of this at [World Waking Up to Aquarian Solutions](#) (6). It shares my 50-year story developing [Global TeleComm](#) (7) and [Global TeLeCare](#) (8). You decide if this Aquarian model of global T.L.C. is an idea whose time has come. Keep in mind that Aquarius is now pouring out the *Great Spirit of Universal Law—Cosmic LOVEcodes* (9), with [Universal Light Language](#) (10)—for global interaction, which will facilitate our individual and collective enlightenment. This is the unassailable [Aquarian Mandate](#) (11).

In the larger scheme of eternal progression, there's a common law—patterns of perfection—and a common language for inspired direction, centered on love within. As we all enter into it, we find a state of being with one clear mandate—either we optimize unity or we become insensate.

"The Turning of Worlds" Has to Come, Folks!

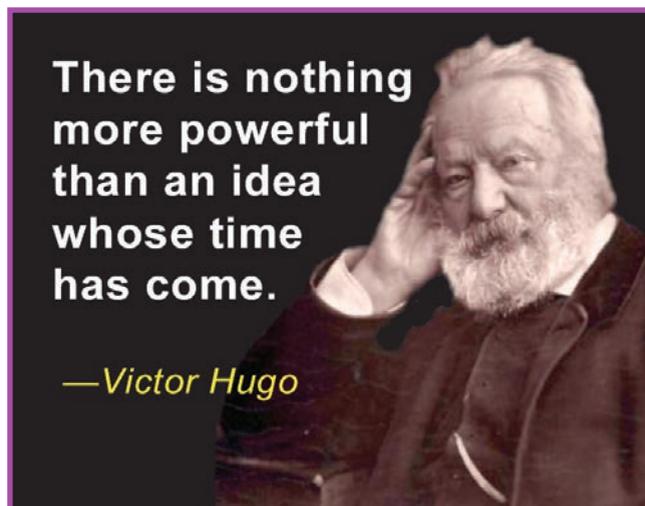

The new Space Force is a front for the Secret Space Program (SSP) that, for 75 years since WWII, has utilized advanced technology to make use of fossil fuels obsolete. These numerous, clean, and free energy-technologies are independent from the current power grid and energy monopoly. Plus, the advanced quantum-healing, "med-bed," tech used by the SSP makes obsolete the Big Pharma medical monopoly. When humans regain their independence in these areas of energy and health, it will augur the end of our enslavement to the globalist potentates.

Personally, I'm acutely aware that the medical-industrial complex has hit a hard wall of consequences for their business model that profits from disease. Since the beginning, it has killed millions, worldwide, with drugs and injections falsely claimed to be safe and effective. This tyranny, genocide, and democide has been in collusion with Big Government, Big Media, Big Tech, and Big Pharma. It has created a mass-formation psychosis where capitulation and obedience in service to a "one-world order" of totalitarian control holds sway. If you're reading this, you're probably an exception to this mass-media, mind-control matrix. You may listen to alternative voices speaking the truth of liberation for humanity. You know that "*dis-ease care*" is a profit model where the main weapon is F.E.A.R.—"*False Evidence Appearing Real.*" Fearless faith neutralizes fear and opens our consciousness to be co-creators of the **GREAT AWAKENING**.

Just as during the American Revolution, today only a tiny minority, which amounts to 1–3% of global Netizens, is actively involved in the online *rEVOLUTION in Higher Consciousness*—but that 1–3% has a sphere of influence with the 20%, who do 80% of the networking on the Internet. This is the "leavening of the whole loaf" that will accelerate the worldwide enlightenment of social conscience in all our global networks.

"In a time of universal deceit, telling the truth becomes a revolutionary act."

~ George Orwell

The last major hurdle to the **GREAT AWAKENING** is a more public awareness of exactly WHO is behind all these agendas of plague, war, scarcity, and depopulation that we are witnessing today. There can be no healing until we come out of mass denial of both the nefarious causes AND the divine solutions. Those with enough fortitude to watch the documentary, [Exposing the Great](#)

[Deception](#) (12), will realize (*with 'real eyes'*), the root causes of the global disease, which is now our responsibility to both eradicate and cure.

All '*light-bearers and light-sharers*' can now claim the victory of an enlightened path for uprising and '*up-wising*' in a web of light, as we network for the net-worth of 'Net reality,' all connected in peace, joy, and love in our global, social-media networks! ■

"Man did not weave the web of life; he is merely a strand in it. Whatever he does to the web, he does to himself."

~ Chief Seattle
