

MOTHER EARTH'S INHERENT WISDOM

David Christopher Lewis

Heartfriends Across Montana and Beyond,

It is surely an interesting time to be alive and to experience the changes that are occurring across our planet! Even with government mandates initiated on a massive scale to limit our freedoms and personal health choices—ostensibly for the common welfare of all citizens—more information is available than ever before to awaken us to new possibilities for our optimal spiritual as well as physical, emotional, and mental well-being. The greater the governmental, medical, or media establishment's measures to control our options, the greater the push-back from concerned and enlightened citizens, who have often been on the forefront of offering new nature-based wellness modalities that utilize Mother Earth's inherent wisdom.

With a team of Aquarian visionaries, I opened *The Alchemy Exchange* store in Livingston, Montana in 2013. We offer numerous wellness products, many of which are infused with frequencies that are beneficial to our inner and outer health and wholeness. I'd like to highlight a few of these products that my wife and I personally use in our home or that others who I know have felt tangible benefits when using them. For the holidays, you may want to "gift yourself" or a loved one with something from our store that resonates with you.

It is indisputable now that the EMF radiations from cell towers to current mobile devices, especially those that utilize 5G technology, is dangerous to our health when those devices are held close to our heads. Unless mitigating measures are used to neutralize these toxic effects, they can energetically debilitate us and negatively impact our brains and nervous systems. One of the best and nearly miraculous discoveries by a Russian scientist to neutralize EMF radiation has been incorporated into products sold by a company called GIA Wellness.

GIA "cell guards" may be applied to the back of mobile devices and GIA "universal guards" may be applied to any electrical appliance or device that emits EMF. These neutralize its stress-related effects and strengthen our body's natural resilience to stress, using both energy resonance (ERT) and molecular resonance effect technologies (MRET), which cover a 60-foot radius. MRET is a patented, noise-field technology that helps reduce wireless radiation absorption. My wife and I have muscle-tested dozens of people to dramatically show how their biofield is immediately strengthened by simply switching their mobile phones with ours.

GIA's "i-H₂O" (intelligent water) Activation System using SFA (single-file alignment) takes the naturally chaotic structure of water and converts the alignment of molecules into a long-range single file, making the water three times more hydrating, which in turn supports the body's natural detoxification process. A charger sits on top of a ½ gallon jug containing regular water and in 30 minutes the water is activated for our healthy cellular hydration. Another benefit is that i-H₂O has also shown to be antibacterial and antifungal!

The GIA "Harmonizer" is the newest and most advanced way to create a harmonious environment in your home or office. This innovative device is the result of intensive research and development in the field of bioenergetics and electro-sensitivity. The Harmonizer's convenient size makes it the perfect travel companion, so you can create an energetically harmonious environment anywhere you go! The Harmonizer assists with stress in your home or office, it covers up to a radius of 60 feet and it uses no electricity.

Probably the most energetically life-changing GIA product that my wife and I use besides the i-H₂O is our GIA pendant, which we wear around our necks, even at night while we sleep. It uses the same technology as the cell and

universal guards, yet lasts a lifetime. We have both noticed how much better we feel when wearing our pendants than if for any reason we forget to don them again after soaking in a nearby hot springs!

Another wonderful product we offer is a “wellness pendant” (in either a gold or silver color), which I first saw at an expo in Los Angeles. We have sold dozens and dozens of these pendants, as they really work. Here is a testimony from a former skeptic: “I’m a non-believer and doubted that this pendent would work. My friend said I should try her pendant for a day or so and see if there is a difference in my energy. I told her that I thought this was some kind of scam just to get you to buy something you didn’t need, and wouldn’t work. All she did was put it around my neck and said just wear it for a few days. I told her I couldn’t believe the difference.

My energy level improved and some of my aches abated. I then tried not wearing the pendant for a day or so and reverted back to slowing down. Needless to say, I bought a pendant and wear it all the time.”

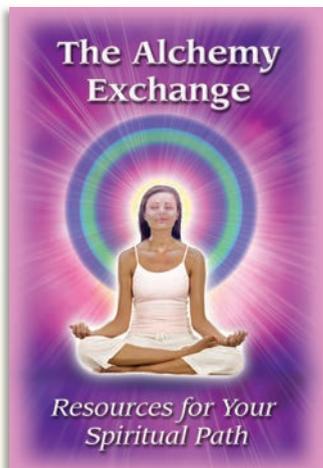

—Sue N., Los Angeles, CA.

In a previous issue of the this magazine, Boyd Badten, our local organite expert and creator, highlighted the positive effects of organites. These are formed in geometrical shapes made of resin, metals, and quartz, and charged to balance and harmonize one’s bio-energy, otherwise known as one’s orgone, chi, or prana. We sell these in abundance through

The Alchemy Exchange. Drop in and see all of the wonderful, Aquarian products at our physical store at 130 N. Second Street in Livingston (side door of the Masonic Temple building) or check us out online at Store.HeartsCenter.org. ■

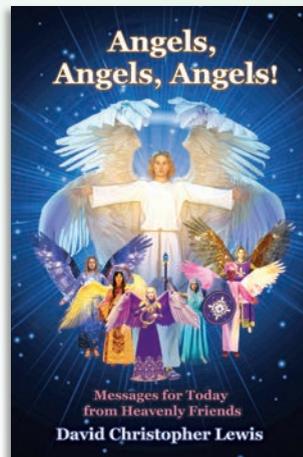

Have a Magical, Miraculous, Marvelous & Merry Christmas & a Happy & Holy New Year!

Come in to see our selection of exquisite Asian statues, lots of crystals, organites, books and gifts you won't find anywhere else!
