

# Mysteries Unveiled—Aquarius Rising

A Reflection of Universal  in the Global Mind

*Christopher Rudy*  
The Metaphysician

Those who know my story as a ‘metaphysician’ are likely aware that I regard the process of holistic healing for our global civilization in much the way as I view holistic healing for an individual. The same principles are at the heart of a parallel process.

**“Enlighten the people generally, and tyranny and oppressions of body and mind will vanish like evil spirits at the dawn of day.”**

~ Thomas Jefferson

Thomas Jefferson called that process “general enlightenment.” It sparked the American Revolution, thanks to Thomas Paine’s famous ‘wake-up call,’ with the most successful political writings in history, his *Common Sense*.

Today, this process of general

**“The cause of America is in a great measure the cause of all mankind. We have it in our power to begin the world over again.”**

~ Thomas Paine,  
*Common Sense*, 1776

enlightenment is being called ‘The Great Awakening.’ And its parallels to 1776 are amazing. Of course, now it’s a global affair.

The computer/Internet revolution has created a global village of instant-everywhere and interactive connectivity—a unified field in principle—with the potential to ‘come-into-unity’ for REAL communities of the whole, healthy, and otherwise holy Spirit—Aquarian Love-in-Action.

Unified field principles define, refine, and ‘shine’ this cooperative communication process with coordinates for general enlightenment. This metaphysical light is the alchemical key to quantum science, quantum reality, and our Aquarian destiny.

It would be common sense today to say that there’s nothing more valuable than an enlightened vision of virtue and valor for the victory of an *Aquarian Quantum Age of Light and Love*.

## Metaphysical Light Is the Alchemical Key to our Aquarian Destiny

The higher the concept of ‘light language’ and ‘Quantum Age,’ the greater the Aquarian results. This is a process of conceiving, believing, and achieving more light and love... easier and faster.

It isn’t rocket science—the universe has rules. Call them quantum-field rules or common-sense rules that will become more common with more enlightenment.

This first principle is to establish a golden-rule-based order as the gold standard for any golden age. This is the heart of the Great Awakening—the Big Shift—morphing out of the matrix of crisis-ridden geopolitics as seen today. This is the 2022/23 Great Turn-Around from Deep State to High State... from mass psychosis to general enlightenment... and from dystopian devolution to ‘utopian rEvolution’ in the millennial Aquarian dispensation.

We’re just on the threshold of Aquarius—the Big Shift known as ‘Aquarian Spring’—like the Arab Spring in the Mideast, except now it’s a planetary, quantum-field event. Quantum science is now beginning to confirm what sages and masters of the mysteries have

**“The nineteenth century was known as the machine age, and the twentieth century will go down in history as the information age. I believe the twenty-first century will be the quantum age.”**

~ Paul Davies, Physicist

been saying for millennia—that what we think of as 'reality' is just an illusion—and that the entire universe (the kingdom of heaven), is a singularity within us—an atONement. So the only real thing in the universe is CONSCIOUSNESS. As preeminent quantum physicist, Neils Bohr said, *“If quantum mechanics hasn't profoundly shocked you, you haven't understood it yet.”*

This universal force includes a heart-coherence factor. It is the ordained power of Love that naturally balances out the inordinate love of power—just as 'fearless faith' neutralizes 'faithless fear.'

When scientists looked for a unified field theory of the universe, they overlooked the most powerful unseen force of all.

## Love is God and God is Love

**“To understand the nature of God, it is necessary only to know the nature of love itself. To truly know love is to know and understand God; and to know God is to understand love.”**

~ Dr. David R. Hawkins,  
*The Eye of the I*

Love is Light, and it enlightens those who give and receive it. Love is gravity, because it makes people feel attracted to others. Love is power because it empowers wisdom to overcome selfish addiction to worldly values that compromise spiritual virtues.

Aquarian Love will be liberated as enlightened common sense

goes mainstream. This is the light side of the Force that explains all and gives meaning to all. It is the most powerful energy in the universe and mankind has yet to harness it as 'kind men.'

Cosmic 'fire' of an archetypal nature is the Aquarian spirit that will create global transformation. This is the fire of pure

**“Man can harness the winds, the waves and the tides, but when he can harness the power of love, then for the second time in the history of the world, man will have discovered fire.”**

~ Teihard de Chardin

desire—the pure intention that focuses attention with love retention for conscious ascension in the 5th dimension of full-spectrum comprehension—*Effective Sensory Perception*. (Say *that* 10 times fast!)

This is the Aquarian Frequency Shift in the planetary field, resonating with one's DNA 'tuning fork,' and thus our consciousness—the quantum field between the ears.

In the incoming Quantum Age, universal quantum laws govern the quantum fields-within-fields. Quantum science is unveiling these mysteries of time, space, and relations of relevance that are ultimately quite reverent. Over the last 33 years of the computer/Internet revolution, the process of our conscious evolution has accelerated with the power to know better and *do* better for the liberation of mankind's vast, untapped talents, tools, and resources.

This megatrend has been defined by four phases of the global computer/Internet revolution. Note how business evolution has matured with the revolution of high-tech business:

**1st Phase Emphasis**—on hardware—massive mainframe computers. IBM set the hardware-tech standard. Big business development was top-down with command-and-control hierarchies.

**2nd Phase Emphasis**—on software—desk-top personal computers. Microsoft set the standard for software. Business development went grassroots with a surge in small-business growth empowered by personal computers.

**3rd Phase Emphasis**—on netware—computers connected on the Internet. Netscape set the standard for the I-Net. Business development went global with 'email' (Web 1.0) and then Web 2.0 platforms, culturing Net reality in the Net roots.

**4th Phase Emphasis**—on HEARTware—networks upgrade from impersonal, high-tech to personalized 'high touch' through Web 3.0, Heartware cyberEthics. Business development embraces quantum reality with the 'wisdom of the crowd' (network community CLOUD), for unified-field pattern recognition, mind congruence, collective conscience, and integrated, quantum common sense.

**Heartware is a 'trend-fit'**—the natural evolution of the computer/Internet revolution. It's in our 'cultural DNA'—the language of light-as-consciousness for a general enlightenment process that integrates hardware, software and netware. And this process involves, evolves, and otherwise cultures our social conscience at the heart of all of our global social

networks. See *Fourth Wave Business in the 21st Century*, by Maynard & Mehrten.

The ultimate value of HEARTware is as a universal interface for global wholeness and holistic healing. It has a 48-year history from the time I introduced it to ten federal agencies on Capitol Hill. It was explained then how all our social, political, and economic problems are, at their core, 'communication problems'—how we 'come-into-unity' for REAL community... accountable to the higher purposes for which a Constitutional Republic serves.

Even now, all the technology needed exists for an Internet upgrade of our *Five Core Net Freedoms*. These will provide checks and balances on the coming accelerated rate of change. This process is called 'Information Ecology'—recycling general knowledge to empower specific wisdom with a heart—HEARTware cyberEthics.

This is Aquarius Rising as a global rEVOLUTION (emphasizing 90% of the word). Conscious Evolution-Revolution-Revelations

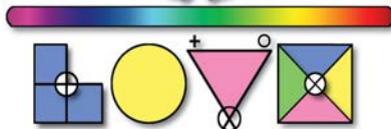

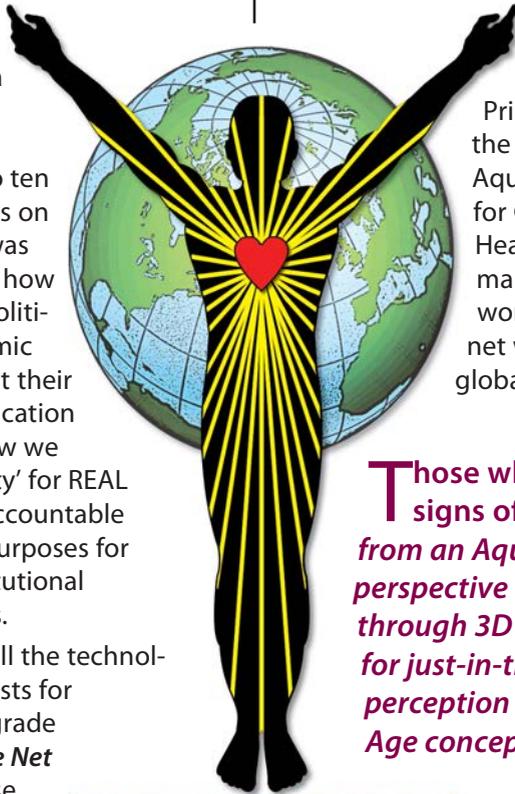

As the chief architect of the Constitution said:

**"Conscience is the most sacred of all property."**

~ James Madison,  
4th U.S. President

will naturally follow the conscientious common sense that will make it so... involving and evolving our individual and collective conscience in our ubiquitous social networks.

So keep your faith in Aquarian Principles. See the good in an Aquarian model for Global, Holistic Healing. And make it so by networking for the net worth of our global Net reality...

**T**hose who read the signs of the times from an Aquarian 5D perspective will see through 3D deception for just-in-time 4D perception of Golden Age conception! ■

**BETTER SLEEP & MENTAL & EMOTIONAL WELL-BEING!**  
with **MORINGA PLANT**  
Following the **SEROTONIN PATHWAY** from *Tryptophan ...to Serotonin...to Melatonin!*

**H** Heath Ledger died from an accidental overdose of **pain-killers, antidepressants & sleeping pills**. All of these problems can be addressed nutritionally. **Following the serotonin pathway**, through superfoods like the **MORINGA**, could be a safer alternative.

**S**erotonin's function in the brain can be elevated in the way nature intended, by providing more of its precursor in our diet. **Tryptophan occurs naturally in foods and in its highest levels in the leaves of the *Moringa oleifera***. With all of this tree's many blessings, this is one of its **most important contributions for all of us who deal with stress**. Increasing your **Serotonin** through diet is a far superior way of balancing mood and sleep **without the side effects and hazards of drugs**. —Jon Zwayer, CMT

**T**ryptophan is an essential amino acid (i.e., you must get it from food) required for the production of serotonin (the neurotransmitter involved in **relaxation and sleep**). Tryptophan helps to control depression and insomnia, alleviates stress, eases pain, and combats inflammation. It is the **raiest of all amino acids** and yet, we all need extra Tryptophan sometimes! **Moringa** is an **excellent plant source**. [Its concentration in the leaves is almost twice that of soy.]
