A Reflection of Universal LOVE in the Global Mind

[The Metaphysician](#)

Five Quantum MegaTrends Shaping a Great-Awakening!

Global Revelations:

Spiritual, Mental, Physical, Social & Financial— a Reformation Revolution!

Understand the 'terms of service'—Aquarian ascension terminology—for a local and global process of "Coming into Unity"—community.

"You are the Universe expressing itself as a human for a little while."

~ Eckhart Tolle

1) Spiritual Revelations— *Quantum Connection*

This is the Law of Atonement as [atONEment](#) that is known universally as the archetypal [Law of One](#) or Law of the Circle for ['spherical consciousness'](#); the '○' in [the LOVE model](#) is as the spiritual sphere of 'I Am' Prescience—your 'causal' body as the etheric cause of higher frequencies governing mental, emotional and physical causation.

The Unified Field of Heart Coherence

This is your moral compass for divine direction of connection with ***'All That Is Real'*** (discernment) and determines one's embrace of universal ***'natural law'*** as defines karmic law, also known as the law of cause and effect, action-reaction, reaping what you sow in the larger scheme of ***Aquarian Quantum Law in the Unified Source Field.***

Being centered and connected with this 1st principle of Revelations is—simply summarized—one's pure intention that focuses attention with LOVE retention for conscious ascension in the 5th dimension of full spectrum comprehension; ESP as ***Effective Sensory Perception***.

Effective Perception— First Principle of the Logos:

Law of atONEment/Law of ONE

The Big Shift to conscientious collective common sense via co-Operative, co-Ordination, and co-Creation, with fresh 'innocence' (inner sense) as we wise up from ***'Internet to InnerNet'*** (cyberspace to inner space), the last frontier of 'ESP.'

Know better, without 'BS' (Belief System), to do better. It's better to believe nothing and to either KNOW or NOT KNOW, becoming more aware of HOW you are conscious— LANGUAGE OF CONSCIOUSNESS—for personal and planetary, evolutionary ascent of conscientious, common sense. Unity in diversity—the Family of Mankind—all of 'US,' as United Sovereigns of Earth.

2) Mental Revelations— *Quantum Thinking*

We are what we think, having become what we thought. Individuals, organizations and civilizations rise and fall according to immutable laws. If you read the

Bible, or *Koran*, or *Book of Mormon*, or the *Bhagavad Gita*, or any such compendium of spiritual literature documenting the rise and fall of people, you will find the same spiritual message at the core of humanity's divine destiny.

When we all live according to First Principles of Universal Love, we naturally wise up and rise up—evolutionary ascent.

Individuals, organizations and civilizations fail and fall due to cherished illusions and 'S.I.N.' (Stuck In Negativity) that is symptomatic of pathological victim dictum rather than victory virtues of the pure and simple message of Masters East and West:

The higher our concept and utilization of the golden rule-law language, 'gold standard', THE GREATER THE RESULTS.

Sacred geometry has been known since ancient times to represent universal laws that are now known to govern quantum science behind quantum healing with acupuncture, homeopathy and medical astrology.

> ***"In the beginning, God geometrized."***
>
> ~ Ancient Hermetic Wisdom framing the "Law of the Angles of G.O.D." (Geometric Ordered Divinity).

Those who are familiar with ***LOVEcodes*** are well aware that this pure geometry frame of reference for Cosmic Law now makes possible a universal interface for global interaction that involves and evolves our individual and collective Conscience with the ***universal language of light-as-consciousness***.

Sooner or later, this is 'prophesy fulfilled' for the ***Aquarian Age of Light and Love***.

This language of consciousness empowers the wisdom of conscientious common sense with a process called 'Information Ecology'—recycling general knowledge in the way that generates enlightened wisdom—***Social Conscience***—in our global social networks.

The more information we have, the greater is the need to get it all IN ORDER!

This is the global rEVOLUTION in higher consciousness with the organizing of all information "IN FORMATION" along more enlightened lines, framing the Constitution of ***'Universal Common Law'*** ***(Quantum Logos)***, for defining, refining, combining and 'shining' our gifts and talents as we link the light of ***lightbearers, lightworkers, and light servers*** of, by, and for all of 'US'—as United Sovereigns of Earth.

Organizing all ***information IN FORMATION*** with a universal communications interface—***The 'Community Building' Process***—(unity in diversity / ***E. Pluribus Unum***) will better represent our collective ***'Mind of G.O.D.'*** ***(mental congruence)*** centered in **heart coherent** .

Mainstream mental ***dis-ease***—caused by information overload and cognitive dissonance—will naturally be resolved with ***Web 3.0 Heartware CyberEthics*** that organize all information IN FORMATION with the ***Constitution of Conscience*** for the Next Economy based on the ***Currency of Conscience***.

3) Physical Revelations—*Quantum Healing*

Quantum Healing is based on the Quantum Science of energy frequencies governing the energy fabric of the universe—AS ABOVE—and one's own bio-energy body—SO BELOW.

The **Aquarian Quantum Age** has already taken a quantum leap with the 65 year Secret Space Program (SSP) that includes not only advanced anti-gravity technology—and free-energy tech—but also numerous quantum healing breakthroughs for restoring a long disease-free life with optimal holistic health.

The empirical truth-based proving of quantum-healing efficacy will be evidenced by self-correcting database standards—**Global TeLeCare**—for the analysis, prevention, and treatment of all disease. These new standards will define and refine a new ***health assurance*** industry, whereby you don't get sick as much and recover quicker when you do.

The only reason that current informatics technology has not yet been utilized to provide free, online **TeLeCare** for health assurance is because the data would clearly expose the harmful ***'pharmacidal' side-effects*** of vaccines and the synthetic chemical drugs used to treat those side-effects.

The economics and politics of the medical-industrial complex for disease profiteering is as entrenched and self-serving as the Military-Industrial Complex is for war profiteering.

4) Social Revelations—*Quantum Mediation*

"THE MEDIA IS THE MESSAGE."

~ Marshal McLuhan

"LOVE IS THE KEY TO MASS MEDIATION."

~ Heartware interface for mass interaction

Social media is rapidly evolving a new Net reality—a new social conscience in our social networks. This evolution will define ***e-valuation criteria*** as will refine a process of mass-to-mass interaction that involves *the language of consciousness* at the quintessential foundation of self-governance.

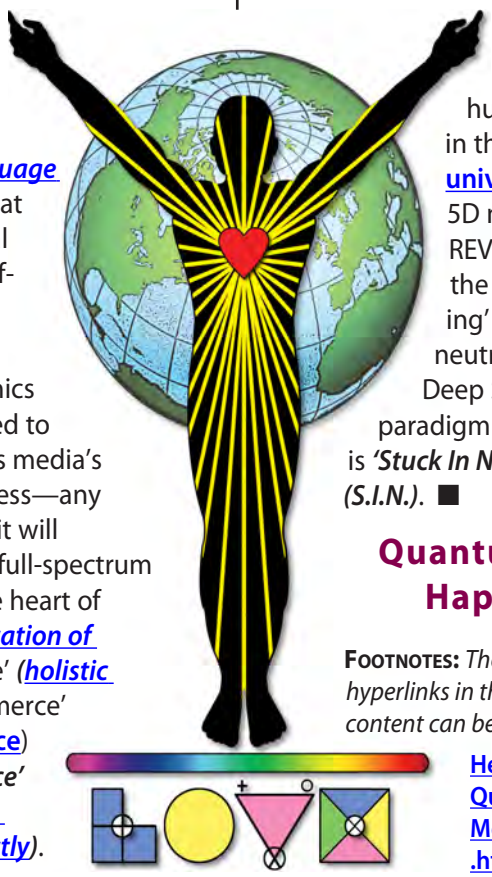
As this new e-media cyberethics standard is utilized to mediate the mass media's mass consciousness—any social network—it will naturally culture full-spectrum conscience at the heart of 'e-learning' (*education of the heart*), 'e-care' (*holistic healing*), 'e-commerce' (with a conscience) and ***'e-governance'*** (*representing the public more directly*).

> ***"If you have built castles in the air; your work need not be lost; that is where they should be. Now put the foundations under them."***
>
> ~ Henry David Thoreau, *Walden*

5) Economic Reset—*Quantum Financial System*

The potential for extraordinary prosperity with release of suppressed technologies will make ***'scarcity economics'*** obsolete.

As the Aquarian Frequency Shift resonates in our DNA—epigenetics of the ***rEVOLUTION***—a 5D High State integrates from the inside out—fine-tuning our attunement with heart coherence and mind congruence in the 'Source Field.'



This quantum upgrade of human evolution in the holographic universe is the 5D nature of REVELATIONS—the 'Great Awakening' that naturally neutralizes the Deep State of 3D paradigm paralysis that is ***'Stuck In Negativity'*** ***(S.I.N.)***. ■
