Editor's Corner

Welcome to cooler weather and the winding down of summer. We're here to assist you in living in tune with nature—within and without. We've got a super issue for you, packed with all sorts of great news, resources and tips.

Have you dipped your toes into Artificial Intelligence (AI) tools yet? Or perhaps you're fully immersed? There's no doubt the AI age is here, and its influence is accelerating. Did you know there's an AI platform that has fully embraced natural health? It's located at **Brighteon.ai**, and we introduce it and make good use of it in this issue. Raymond Ziemkowski also makes use of ChatGPT to summarize some esoteric books for his huge article on the origins of mankind and the God Star Sirius.

> **AI:** "Every job will be affected, and immediately. It is unquestionable. You're not going to lose your job to an AI, but you're going to lose your job to someone who uses AI."
