Celebrating the 2025 Turning Point Signs of Transformational Times

Whether you see the world 'cup' as half full or half empty, it won't alter the fact that **world change is trending from Great Awakening to Great Enlightenment...** very fast!

In my weekly [Substack Newsletter on 2025 Global rEVOLUTION](#), I've been explaining since the first of the year that 2025 is the turning point in the [2020's Aquarian Frequency Shift](#).

Since the birth of the Internet, our new instant-everywhere and interactive capabilities have accelerated the rate of change dramatically. And now with the mainstreaming of breakthrough AI tools in 2025, the rate of accelerating change has gone exponential; ballistic; stratospheric to all-connected O-point quantum **singularity**.

This is a quantum shift from a sense of separation to a sense of connection and equanimity. The Internet now connects the **Family of Mankind** as netizen neighbors in a global village, at least in principle.

250 years ago, **THE FREEDOM CRISIS** was brewing in America. Now THE CRISIS is an all-connected, global affair.

So, this is also an **identity shift** from 'US' as 'United States' to 'US' as 'United Sovereigns' of Earth.

[Aquarian Quantum Enlightenment](#) (Preview)

This is our future folks, featuring innovative Aquarian models for culturing social conscience in our local and global social network communities. This includes framing of golden rule-law principles of [G.O.D.](#)- government with upgrade of [Five Core Internet Freedoms](#) that check and balance the inordinate love of power with the ordained power of .

This is the global drama we'll witness over the next five years; AI empowerment for innovation and transformation has been unleashed.

The Three Phases of Global rEVOLUTION

A Metaphoric Metamorphosis Meme

CATERPILLAR 'S.I.N.' PHASE (Stuck In Negativity)

The Old Patriarchal Paradigm of 3D materialism emphasizes the values of top-down, centralized, physical ownership and control.

CHRYSALIS 'D.U.H.' PHASE (Dense-Unconscious-Heartless)

The '3D ID' of the caterpillar disintegrates into a blob of gestational cells and genetic potential for transformation, (but temporary IDentity crisis).

BUTTERFLY (A.H.A.!) PHASE (Aquarian Holistic Ascension!)

The Aquarian New Paradigm with 5D+ Divine Feminine Frequencies soaring on wings of cooperative "Angels of Our Better Nature."

We're not out of the 'woods' (chrysalis), yet! Economics and politics are still making a killing on war and disease—*Big DUH!* But we're definitely at a critical mass of Great Awakening—the *"turning point"* that Charlie Kirk's assassination has sparked with fervor.

"Enlighten the people generally, and tyranny and oppressions of body and mind will vanish like evil spirits at the dawn of day." ~Thomas Jefferson

When Jefferson was President, he invited Thomas Paine to the White House and said they couldn't have had the Revolution without him.

Paine was America's Founding Father who sparked the American Revolution as a citizen journalist with the most successful political publication in U.S. history, *"Common Sense."* And what he said then, rings true today...
"We have it in our power to begin the world over again."

One of my favorite Substack writers is [Karen Kwiatkowski](#) who recently wrote these words about Thomas Paine:

"Any protest against authoritarianism and the state must be welcomed, in the mode of Thomas Paine. Radical, brave, and with only his life to lose, he valued independence of self and mind, always chose reason over the stupid crowd, believed that blind faith in the state could be corrected by facts and logic. He boldly welcomed trouble in his time, so the next generation might have peace."

"We all have a little Tom Paine in us, and no doubt we are blessed with a multitude of modern crises in which to nurture that bold seed of sheer contempt for the criminal state. Those of us who quell our Tom Paine urges and sensibilities will indeed lose badly."

"Beyond remaining slaves and dying as slaves, we will condemn our children to both slavery and war."

"On the other hand, what better time than now to exult and celebrate the man who understood that '...taxes are not raised to carry on wars, but that wars are raised to carry on taxes.'

"We might assume, from the Declaration of Independence, that the supreme cause for which man forms a government is liberty, and from liberty, man garners peace and prosperity. Paine wrote:

'Society in every state is a blessing, but Government, even in its best state, is but a necessary evil; in its worst state an intolerable one: for when we suffer, or are exposed to the same miseries BY A GOVERNMENT, which we might expect in a country WITHOUT GOVERNMENT, our calamity is heightened by reflecting that we furnish the means by which we suffer.'

"I suspect most Americans would agree with Tom Paine that it adds insult to injury that we are forced to pay in full, and obey unconditionally, the very criminal and obscene government that oppresses us and much of the world."

The [Mind of G.O.D.](#)
and [Heart of](#) 
Is **All Ways & Always**
for giving.

“It is still too much for most Americans to look into the abyss of state evil. Our lived fairy tales of state assassination of leaders, [journalists](#), and [Presidents](#), of spying and [mass surveillance](#), of [mass murder at home and abroad](#) frighten more than enrage.

“Thomas Paine differentiated between summer soldiers and sunshine patriots, and those who stand fast in a hard fight for liberty, against the odds. Today, soldiers and patriots alike need to hear the advice of Whitney Webb, [where she explains the active state engineering of desperation and the cause it serves.](#)

“A mass American movement against the state

is rising, but it is not yet clear if this rise will be coherent, or incoherent, or completed and perfected. Uncertainty is a natural part of the crisis in which we find ourselves, with limited information, despite having the whole of human knowledge and history at our fingertips.

“But nothing can stop us today from closely watching [our enemy, the state](#), and noting that it is growing financially precarious, representationally and ethically unbalanced, increasingly frantic, and increasingly evil.

“Thomas Paine would see great opportunities today for real liberty to be regained, and as he wrote in [Common Sense](#), he would recognize both the inevitability of change and the danger of waiting by the sidelines.

“His 1776 question, *‘Should we neglect the present favorable and inviting period...?’* must be answered by each of us, and increasingly, it is being answered by our actions more than our words...

“What a time to be alive!”
